DETAILED ACTION

1. Applicants' arguments filed June 13, 2003 have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.
2. The Declaration under 37 CFR 1.132 has been accepted.
3. The addition of new claims 36-43 has been acknowledged.
4. Claims 1 and 36-43 are examined on the merits.

CLAIM REJECTIONS - 35 U.S.C. § 112, FIRST PARAGRAPH

5. Claims 37, 38, and 40-43 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
6. This is a new matter rejection.
7. Claim 37 recites the limitation wherein "the sample is an unfractionated body fluid or a tissue sample" which is considered to be new matter. It is acknowledged that Applicant discloses "unfractionated body fluids or tissue sample" (page 11, lines 1-9); however, the disclosure is directed to the deficiencies of retentate chromatography not the instant claimed invention. Therefore, it is suggested by the instant specification that the "unfractionated body fluids or tissue sample" limitation is what is known in the art; however, it has never been contemplated to be the claimed subject matter.

8. Claim 38 recites the limitation “cerebrospinal fluid” which is considered to be new matter.
9. Claim 40 recites the limitation “wherein said patient is a human” which is considered to be new matter. It is acknowledged that Applicants discloses “the peptide fraction in human blood” (page 5, lines 18-23); however, the disclosure is directed to the method of Richter et al. but not the instant method of the claimed invention. Therefore, it is suggested by the instant specification that the “wherein said patient is a human” limitation is what is known in the art; however, it has never been contemplated to be the claimed subject matter.
10. Claims 41-43 recites the limitation diagnostic kit with defined composition such as SEQ ID NO. 1 and antibody, which is considered to be new matter. It is acknowledged that Applicants discloses “a diagnostic kit” (page 18, lines 5-7); however, the disclosure does not disclose that said diagnostic kit comprises SEQ ID NO. 1 or antibody.

CONCLUSION

11. Claims 1, 36, and 39 are allowed.
12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
13. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to

37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
